Retained search + advisory · £45k–£70k

VERIFIED TRIGGER

✦ AI-RESEARCHED

The share-allotment filing that flagged this lead is a **routine employee share-scheme vesting — not a capital raise** (checked against the PDMR / AGM record). The free engine's "capital raise → team build" read is a **false positive**. The real, current reason to call: Kingfisher's latest results name **retail media** and the **marketplace** as growth pillars, while group marketing stays brand-fragmented and the French business is under restructuring pressure.

ACCOUNT THESIS

✦ AI-RESEARCHED

Kingfisher is becoming a retail-media and marketplace platform with a marketing function built for stores. The strategy has moved; the org chart hasn't — and France is absorbing the leadership's attention.

Corporate Affairs sits centrally and reports to the CEO; marketing is run brand-by-brand with a thin group layer. Retail media is named as a profit pillar but is under-resourced versus the Tesco / Boots media networks. France (Castorama / Brico Dépôt) is under cost and management pressure.

THE HOOK ✦ AI-RESEARCHED

"Most home-improvement retailers we speak to are trying to stand up a retail-media business with a marketing team built for stores, not media — and your last results put media front and centre while the structure hasn't moved. We mapped how a named retail peer resourced exactly that shift. Worth a 20-minute compare?"

TALKING POINTS

✦ AI-RESEARCHED

- Retail-media commercial leadership is a thin, passive talent market — in-house TA rarely reaches it.
- The group marketing layer is built for store brands, not a media P&L — a benchmarking question, not a pitch.
- France change-comms can be covered interim-first — no permanent headcount sign-off needed.

GENUINE NEEDS + AI-RESEARCHED	SEARCH	Retail-media commercial & marketing leader to scale the media network into a real profit line. — results name it a current-year priority; no senior owner visible. (high)
	BENCHMARKING	Group marketing / comms operating-model review — brand-fragmented vs. a group-platform strategy. — brand-level leadership pages show no unified group layer. (medium)
	INTERIM	France restructuring change & stakeholder comms. — France weakness + management change flagged in results. (medium)
SECTOR INSIGHT	• Live in your peer set: WH Smith (profit warning, Jun); Unilever (activist stake, May) — 25 senior-team triggers across the group in the last 90 days. • Cost-of-living pricing politics and supplier disputes keep retailers in near-permanent reputation management. • Store-estate restructuring and automation drive heavy internal-change communications demand.	
WINDOW	Now — the retail-media leadership gap is live and unfilled; the conversation doesn't wait for a vacancy to be posted. Live demand	
FEE AT STAKE	Retained search (retail-media commercial leader, ~£90–120k base) + a benchmarking project ≈ £45k–£70k — plus an advisory engagement that opens the account <i>before</i> any placement. Confidence: High (primary-source this quarter).	
IF YOU LAND THE MEETING + AI-RESEARCHED	From first contact, the AD takes over — this is held in reserve, not the headline. On file for the AD: three diagnostic opening questions, and the two most-likely objections with honest counters (“we recruit ourselves”; “budget's tight after France”).
